

FAMU-FSU College of Engineering

No. 2 by *U.S. News & World Report* among all public and private engineering schools in the state of Florida

No. 40 among public universities according to *U.S. News & World Report's* "Best Colleges," 2021

The FAMU-FSU College of Engineering earned a Bronze award and Exemplar status from the American Society of Engineering Education, **one of only two** engineering programs in Florida to earn the distinctions

One College. Two Universities. Unlimited Opportunities.

Embracing two nationally prominent institutions' rich heritage and strengths into one innovative program, students and researchers at the FAMU-FSU College of Engineering confidently hone cutting-edge skills essential to their development as engineering professionals.

Florida A&M University and Florida State University students come together at the only shared engineering school in the nation which collaborates with several advanced research facilities.

Widely hailed for aligning programs and academic curriculum with current industry needs, this unique collaboration between a top historically Black university and a Research-1 institution ensures students receive quality teaching and research opportunities, all while in a diverse environment.

YOUR SUPPORT PROVIDES

- ◆ Undergraduate scholarships
- ◆ Graduate-level research fellowships
- ◆ Excellence in teaching through endowed chairs and professorships
- ◆ Faculty retention programming
- ◆ Ongoing support for Senior Design, the college's signature senior capstone experience
